Map for smart-phone users =>>

You can enjoy the Tokyo Water Front City area both in the daytime ☀ as well as at night! 🌙

★The numbers on the photographs stand for the location where they were taken. (The locations are noted on the front page of the map.)

Daytime View Spot

DAYTIME VIEW SPOT

How about a leisurely stroll or walk as you enjoy the view provided by the Tokyo Water Front City area in its ocean encapsulated environment?

1 Gazing upon the Tokyo Tower from the Symbol promenade park.

2 The Statue of Liberty is there to greet you. This is a replica of the Statue of Liberty located in Paris.

3 The view of the Rainbow Bridge and the high-rise buildings on the opposite shore provides for a beautiful sight that mesmerizes all who come to visit.

4 The remains of a fortress that was set up here 150 years ago has been preserved as a park. (* This photograph was taken from the Rainbow Bridge walkway.)

5 These Washington palm trees produce an exotic atmosphere as they seem to enclose the gently flowing watercourse. This location is often used as a film location spot for various TV shows.

6 Container ships as well as all other kinds of ships traverse the Tokyo Bay right in front of your eyes.

7 In spring, you can enjoy the contrast between the blue of the ocean and the Cherry blossoms in full bloom.

Nighttime View Spot

NIGHTTIME VIEW SPOT

Each area is beautifully lit up as the evening descends making for a very romantic atmosphere. You will most definitely want to take photos of all these scenic spots.

1 The Symbol promenade park and the Tokyo Tower lit up at night. (The times for the night light ups differ from season to season.)

2 The ferris wheel which changes its illumination to match the seasons enlivens and adds color to the bay area.

3 By all means, we hope you will enjoy a romantic experience here in the night time Park.

Have fun at Odaiba Ride the amphibious bus

Community cycling

Enjoy these ever so easy to rent bicycles!

This area features convenient and environmentally friendly community bicycles. You can easily rent a bicycle at any of the ports located at each major area and return them wherever you find yourself. Further, there is an 'unmanned registration machine' located near every train station so even if you haven't made advanced registration-no problem.

東京お台場 FreeWiFi

You can make use of the Tokyo Water Front City's public wireless LAN service free of charge. With a simple registration procedure you can connect to the Internet. You can use the service without any worry about being charged with hidden, expensive telecommunication fees.

*However, you will be charged with a telecommunications fee to be issued a password. (This is the responsibility of the user.)

You will be warmly greeted with a variety of beautiful flowers throughout all the seasons of the year.

The hospitality of flowers and greenery

Garden of hospitality Summer garden

In 40 different gardens the views of 300 types of flowers and plants capture your heart.

Observation time

Late June
to
late September

In order to greet all of our visitors with flowers and greenery we have, with the cooperation and efforts of gardening and horticulture firms and the citizens of Tokyo, created a summer garden filled with flowers that perfectly match Tokyo in summertime.

The location of exhibition ① is noted on the front page of the map.

In the summer we hold a summer flower technical competition.

You can enjoy the beauty of these flowers that proudly bloom overcoming the summer heat.

Garden created on the theme of Japanese atmosphere

Garden of hospitality Winter and Spring garden

Flowers such as pansies and violas color the garden from winter through spring.

Observation time

Early December
to
early May

In the 'Yume no Hiroba <Dream square>' we create and exhibit, in addition to the Summer garden, a 'Winter and Spring garden' that is created centering on the flowers of pansies and violas that can be enjoyed from winter through to the end of spring.

The location of exhibition ① is noted on the front page of the map.

From winter through spring you can enjoy flowers that differ from summer flowers.

The flowers bloom lavishly in a variety of colors unique to the winter season.

Please enjoy the contrast that exists between the modern day buildings and the flowers of the gardens-something that the Tokyo Water Front City can uniquely provide.

Tulip Festival

400 types of tulips numbering to around 200 thousand bloom in great stature in this garden that is the largest in the Kanto area.

Observation time

Middle of March
to
the middle of April

In the 3 Symbol promenade park locations environments have been created with efforts and cooperation of the local citizens, neighboring companies and students where one can dynamically feel the different qualities and beauty of the seasons.

The location of exhibition ② ③, and ④ is noted on the front page of the map.

2 Color mixing (Mosaic)

Enjoy the beautiful scenery of many mixed colors.

3 Flowing flower beds.

The rows of flowers that have been made to resemble the flow of a river are a must-see.

4 Exhibition garden

Please thoroughly enjoy this exhibition garden that has the largest numbers of types in the Kanto area (3rd in all of Japan).

To the users of the park

- Let's be sure to throw our trash in the garbage cans.
 - The use of fire is prohibited in the park. (This excludes the BBQ area.)
 - Please smoke only in areas near the provided ash trays.
 - You may not pick the vegetation in the park.
- To the users of the park

The park is an asset that belongs to all of us. Lets treat it properly and use it in a way so we can all enjoy it equally.
